

## VSLogger Pro and VSLogger Basic Version Comparison

Versadial Solutions introduces our new **low-cost VSLogger Basic** package for small to medium sized businesses. For those that do not need all the “bells and whistles” the VSLogger Basic is a perfect choice. VSLogger Basic has search and playback according to the following parameters: caller id, dialed number, time and date stamp, and notes. Save recordings to local drive and emailing are also included.

Upgrade to the VSLogger Professional at any time. VSLogger Pro is for business in need of more features such as; T1/E1, capturing extensions (SMDR integration), unlimited remote access, multi-level permissions, reports, scoring/grading, archiving, VoIP recording, and more.
